HARDWOOD CONDITIONING PADS

new!

2 in 1 pad*

saves you money!

These 1/4" thick pads are manufactured with the finest fibers, resins and abrasives to allow multiple levels of surface blending on hardwood floors. Used between coats of finish to give the surface a texture to adhere to as well as remove dust particles and raised fibers. These pads are especially effective on water-base finishes where screening removes too much finish.

Maroon Heavy Duty Pad – Aggressive pad designed for surface smoothing of wood fibers raised by water-based finishes.

Dark Maroon General Purpose Pad – Designed for deburring, smoothing, cleaning and general surface conditioning of wood floor surfaces between coats of finishes.

Gray Light Buffing Pad – Ultra fine for cleaning and light conditioning prior to final coating.

*** Now, get more for your money with the new 2 in 1, 16" Dark Maroon Conditioning. This pad now has a perforated 7" disc that is easily removed for use on an Edger machine or simply as a hand pad.**

PART NUMBER	SIZE	PADS/CASE
16" Diameter		
662610 02056	Maroon (Medium)	10
